

3rd MOSBRI Scientific Conference

10th - 13th June 2024, Ljubljana, Slovenia

Building bridges

Molecular-scale biophysics research infrastructure for
European life science research

Macromolecular interactions, kinetics and dynamics | Integrative structural biology |
Computational biophysics and artificial intelligence
applications | Molecular bioimaging | Macromolecular design, stability and
quality control | Emerging approaches in biophysics

Plenary Speakers:

Roman Jerala (Slovenia)

Lynne J. Regan (UK)

Harald Schwalbe (Germany)

Andrej Šali (USA).

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101004806
