USER REGISTRATION FORM

The information below will be used solely for record and EU reporting purposes.

Surname: _____   **First name:** _____

Title: _____   **Nationality:** _____   **Gender M/F/non-binary:** _____

Email: _____

Job Title: _____

From the lists on page 3, please select the most appropriate category which best describes your current research area *and* activity domain *and enter them below.*

Current research area
Enter the appropriate letter _____

Activity domain
Enter the appropriate number _____

Employing organisation/Home institution

Name: _____

Country: _____

Legal status of the employing organisation/home institution**:** *select one of the descriptions below*.

UNI	**RES**	**SME**	**PRV**	**OTH**
University and other higher education organisations	Public research organisation	Small and medium-sized enterprises	Other Industrial and/or profit Private organisation	Other

Project number: MOSBRI-_____

Project title: _____

_____

MOSBRI TNA site name and installation: _____

If the project has been carried out, either fully or partly, as "**remote access**" the details on page 2 should be filled in by the TNA site.

Period of Stay at TNA site   **Arrival Date:** _____   **Departure Date:** _____

Access time   **Start date:** _____   **End date:** _____

Time allotted: _____   **New User*:**   Y / N
*Delete/select as appropriate

In signing this, I am aware of the requirements to acknowledge the EU funded TNA support under **MOSBRI** when disseminating results from this project, as well as the concept of Open Access to TNA generated data, as detailed on page 3 and also at
https://www.mosbri.eu/apply-for-tna/#Acknowledgement

_____   _____
Date   **Signature (User)**

Please return your completed User Registration Form to your contact person at the MOSBRI TNA site
For more information about the **MOSBRI** *privacy policy please visit:* https://www.mosbri.eu/privacy-policy/

Remote Access

If the project has been carried out either fully or partially as remote access (work carried out on the project at the TNA site where the user is not present on-site), **the TNA site should record the details of the work and the time used in the table below**.

Period, should indicate date or date range of the activity. Typical *activities* include online meetings, performing measurements, data analysis etc. The time used for the activity is entered into the *access time* column.

Period	Activity	Access time

The total access time used on the project should also include any user visit to the TNA site.

Total access time: _____ *Specify the access unit*

Upon completion of the project, the TNA site should sign and date this page, before returning this form to the user for their final signature on page 1.

Date	Name	Signature	On behalf of the TNA site

Publications and acknowledgement of MOSBRI TNA support.

All **MOSBRI** TNA users must ensure open access to publications arising from TNA, as recognition for the EU funded free-of-charge TNA provision, either as full open access (gold) or as access to archived accepted versions of the manuscript (green). The only exception to this rule is for users working for SMEs.

We request that any presentation of results obtained through **MOSBRI** TNA support be acknowledged, citing the unique project number assigned (MOSBRI-202X-YY). Specifically for journal articles the following sentence should be included in the acknowledgements (or funding) section of the paper:

"This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101004806."

Information regarding any publications (articles, theses, conference proceedings etc.) resulting from TNA supported projects should be submitted to the TNA site, citing the full reference details with DOI.

Open Access to TNA generated data

We would also like to make all TNA recipients (except those from SMEs) aware of the concept of Open Access to TNA generated data, as a recognition for the EU funded free-of-charge TNA provision. This involves:

- The TNA recipients should deposit their TNA data to an appropriate public repository.
- The TNA data deposition should be done after a possible TNA recipient specified embargo period of a maximum of 18 months after the completion of their TNA research or within 6 months of the termination of the project, whichever is sooner.
- The TNA data should be released under the TNA recipient's name and contact information.
- The TNA results will be fully owned by the TNA recipient.

Some TNA projects may generate data with potential commercial and intellectual value that will be protected while the legal processes with regard to patent application or other protection are ongoing. In particular, **TNA recipients from SMEs** are not obliged to publish or deposit data resulting from a MOSBRI funded project. However, if they do so, the recipients should acknowledge the support they have received as indicated above.

Detailed categories for research area and activity domain

Select the most appropriate category describing your current research area and activity domain (the area of science which best describes the TNA project) from the lists below and enter the corresponding letter and number where requested in the text boxes on page 1 of the form.

Current Research Area		Activity Domain	
A	Physical and Analytical Chemical Sciences	1	Life Sciences & Biotechnology
B	Synthetic Chemistry and Materials	2	Physics
C	Molecular and Structural Biology and Biochemistry	3	Chemistry
D	Genetics, Genomics, Bioinformatics and Systems Biology	4	Energy
E	Cellular and Developmental Biology	5	Engineering & Technology
F	Physiology, Pathophysiology and Endocrinology	6	Material Sciences
G	Neurosciences and Neural Disorders	7	Earth Sciences & Environment
H	Immunity and Infection	8	Mathematics
I	Diagnostic Tools, Therapies and Public Health	9	Social Sciences
J	Evolutionary, Population and Environmental Biology	10	Humanities
K	Applied life Sciences and Non-Medical Biotechnology	11	Information & Communication Technologies
